#### **Math**

---

Students are continuing to learn how to decompose numbers, especially 6 and 7. The students have also been enjoying centers which include work with a teacher, math binders and math games. The students are enjoying and practicing a lot of skills during math.

#### **Language Arts/Reading/Writing**

---

Please continue to practice sight words at home. We began fluency passages this week. Each passage focuses on a particular word family, consonant blend, or digraph. Please have your child read these passages to you at home. Students are learning to blend sounds to read consonant-vowel-consonant words. This week's sight words are: want, good, too, pretty, into. We also read Five Funny Penguins.

## Theology

---

We are continuing to learn about the definitions of a sin and an accident. The students also know that God always forgives us when we sin and always loves us. We talked about how people in a community help each other and take care of each other. The students also learned that God is our shepherd and will always take care of us. We may be scared at certain times which is okay, but just know that God is always with us and by our side.

## Science

---

This week in the science lab we focused on playing with items and drew a snow village. We also learned about Martin Luther King Jr. and why he is important in our lives.
