Message from 4th grade Team

Hello CCS parents,

Thank you for taking the time to meet with us in the past couple days. We appreciate the support and dedication to your child's success, and have sincerely enjoyed getting to know you and your children. As we begin the 2nd Quarter, please do not hesitate to reach out with any questions or concerns. We are looking more and more like 4th graders each day, and couldn't do it without the home/school connection.

Please note the schedule changes at the bottom of the newsletter

Blessings,
4th Grade Team

Follow-up back to school night information: All tests and quizzes for Math, Science and Religion will be taken via google forms. Each time your child takes a test or quiz, he/she will receive a response receipt with his/her answers, the questions, and the correct answers, along with the final grade. They are able to see the questions missed/correct answers and their grade immediately following their submission. I want to be sure you all are able to keep up with their test/quiz progress so it is imperative for you to have access to their email login information. Should you need this information please let me know and I'd be happy to share it with you. They were all given a notecard with their email and password, and many of the students have memorized it already.

Week in Review

Language Arts

In Language Arts this week, students worked on learning how identifying text structures can make reading nonfiction so much easier to access! We also worked on other strategies to tackle challenging nonfiction texts.

Social Studies

In Social Studies this week, students worked on the Native American Village dioramas! This was a very fun, engaging activity and one that will stick with students for a long time!

Math

In Math this week we have enjoyed learning the base-10 model and standard algorithm for multiplication of multi-digit numbers with regrouping, and how to multiply multi-digit numbers using the distributive property. We continue to practice our fluency with basic facts (1-12 times tables).

Science

In Science this week we have enjoyed exploring our body systems, and how they each play a critical role in either obtaining oxygen and nutrients, or helping us think and move. We enjoyed our "Pulse Rates" Lab to explore the function of our heart, and observed first hand how rates increase/decrease with varying levels of activity.

Religion

In Religion this week we've been focused on the Sacraments of initiation, and have been working on letters to our godparents.
