## Science/Social Studies

---

It has been a truly enchanting and enriching year full of exploring and experimenting with the Hawks. It has been an honor to learn alongside your sweet students! Thank you for supporting all of our crazy ideas through donations and volunteer hours!

## Math

---

These marvelous mathematicians created beautiful board games! From design to function, these cute creators can do it all. What a blast they had learning how to play each other's games!

As the year draws to a close and throughout the summer, whet your math monster's appetite with daily fact fluency practice! These "snack-sized" sessions (3-5 minutes) are perfect for keeping facts fresh and your monster sated!

Summer's just around the corner! Take the opportunity to hop into math at [SplashLearn.com](http://SplashLearn.com). This digital resource is free for one more week! Soak it all in while you can!

## Language Arts/Reading/Writing

---

Roses are red,  
Violets are blue,  
These second graders love their poetry,  
And you will, too!

Published poetry will be sent home next week for your viewing pleasure!

There's no business like show business!! We are just days away from our theatrical debut! Please use your child's "home" script for daily practice...the goal is for each of these adorable actors to memorize his/her lines. Of course, your child is welcome to wear his/her school uniform in lieu of a costume and if his/her lines aren't memorized, a script will be provided during the show.

## Theology

---

This week we talked about Corpus Christi, which will be celebrated this weekend at mass. We finished up some Bible stories as well.

I feel truly blessed for the opportunity to teach 2nd grade Theology this year. May the Lord bless them in their faith as they go forth!
