Social Studies

This week students will learn about the written language, inventions, and government of Ancient Rome.

Next week students will work on the Trade in Ancient Rome Project. They will be designing a Roman trade route map to explain the importance of trade in Rome.

Math

This week students will learn about equivalent fractions, adding and subtracting fractions, and fractions on a number line. We will review fraction vocabulary.

Next week students will review equivalent fractions using polygons, and fractions on a number line. They will learn how to represent a fraction greater than one on a number line.

- MATH WEBSITES:
www.studyisland.com - use student username and password to access Study Island.
www.mathsisfun.com - for increasing addition/subtraction fluency and accuracy.

Language Arts/Reading/Writing

This Week:

We continued our novel study on the *Boxcar Children*. We wrapped up the book and completed Google Slides Book Reports as a culminating activity. Next week students will have the opportunity to present their work to the class. We also completed some end of the year assessments in language arts, spelling, and reading.

Next Week:

-Grammar:

-Mentor Sentence: **None**

-New: Word Study (Spelling): **None**

-Featured Story: *No featured Story this Week. Instead, we will continue our Novel Study on The Boxcar Children - Students will present their Google Slides Book Reports to the class.*

Theology

This Week:

We completed our final decade of the rosary this week and concluded our discussions/activities centered around Mary. We also completed work from our Christ In Us workbook and Theology of the Body curriculum.

Next Week:

We will spend time reflecting on the spiritual journey that we have been on over the course of the school year and how we have grown closer to God.

Science

This week students are learning how to classify living and nonliving organisms.

Next week students will learn the parts of a plant and be introduced to the process of photosynthesis.
