## Math

---

Our marvelous mathematicians created beautiful board games! From design to function, these cute creators can do it all. What a blast they had learning how to play each other's games!

As the year draws to a close and throughout the summer, whet your math monster's appetite with daily fact fluency practice! These "snack-sized" sessions (3-5 minutes) are perfect for keeping facts fresh and your monster sated!

Summer's just around the corner! Take the opportunity to hop into math at [SplashLearn.com](https://www.splashlearn.com). This digital resource is free for two more weeks! Soak it all in while you can!

## Literacy

---

Roses are red,  
Violets are blue,  
Our second graders love their poetry,  
And you will, too!

Published poetry will be sent home next week for your viewing pleasure!

There's no business like show business!! We are just days away from our theatrical debut! Please use your child's "home" script for daily practice...our goal is for each of our adorable actors to memorize his/her lines. You can also utilize your script for costume and accessory ideas. Of course, your child is also welcome to wear his/her school uniform in lieu of a costume.

## Religion

---

This week, our little theologians explored the beauty of the birthday of the Church, Pentecost! Then we enjoyed our final time together in the chapel for prayer. May the Lord bless them in their faith as they go forth!

## Science/Social Studies

---

It has been a truly enchanting and enriching year full of exploring and experimenting with the Sloths and Cheetahs. It has been an honor to learn alongside your sweet students! Thank you for supporting all of our crazy ideas through donations and volunteer hours!
