### Math

---

We continue to work on number sense, (counting, one to one correspondence, sequencing numbers). We have our daily/weekly questions and graph our answers.

### Language Arts/Reading/Writing

---

In Language Arts we have been studying a letter a week. We include lots of tactile activities such as creating the letter with playdough, dot paint, toothpicks, and other materials. We work on letter sound and identification and create crafts that fit the letter. This week, we will learn about the letter P! We read lots of books that feature the letter and are also reading books about Fall.

## Religion

---

Each week in October, the school will recite the rosary outside. JK will learn about Mary this week and memorize the Hail Mary prayer.

## Science

---

Ms. Shank's class is continuing to focus on Fall, changes in nature, and animal behaviors. Ms. Wawner's class continues to explore the 5 senses. This past week the class investigates smell, this coming week they will learn about taste and touch.

## Other Information

---

Both classes will continue to study our assigned countries for Hispanic Heritage month. This coming week we will be decorating our classroom doors to showcase the country we are studying.
